## **DETAILED ACTION**

### ***Response to Arguments***

Applicant's arguments, see applicant's remarks pp. 7-10, filed 9 August 2006, with respect to claims 1-25 have been fully considered and are persuasive. Therefore, the rejection has been withdrawn. However, upon further consideration, a new ground(s) of rejection is made in view of applicant's amendments.

### ***Claim Objections***

Claims 1 and 12 are objected to because of the following informalities:

1. Claim 1, line 1, typographical error ("...data lost due a power instability...");
2. Claim 12, line 2, typographical error ("...data lost due a power instability...").

Appropriate correction is required.

### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-25 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1 recites the limitation "the recovered write operations" and "the log entry for the recovered write operations" in lines 13-14. There is insufficient antecedent basis for this limitation in the claim.

Claims 2-11 are rejected by virtue of their dependency.

Claim 12 recites the limitation "the log of write operations" and "the memory" in lines 7-8. There is insufficient antecedent basis for this limitation in the claim. Examiner notes a previous recitation of an "internal memory".

Claims 13-20 are rejected by virtue of their dependency.

Claims 14 and 15 recite the limitation "the read data disk" in line 2. There is insufficient antecedent basis for this limitation in the claim. Examiner notes previous recitation of a "real data disk".

Claims 19 and 20 recite the limitation "the write journal" in line 3. There is insufficient antecedent basis for this limitation in the claim. Claim 19 also recites "a power instability" in line 4. Applicants has previously recited "a power instability" in the parent claim.

Claim 21 recites the limitations "the log of write operations" in line 10, and "the log entries for the recovered write operations" in line 11. There is insufficient antecedent basis for these limitations in the claims.

Claims 22-25 are rejected by virtue of their dependency.

### ***Conclusion***

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37

Art Unit: 2115

CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
